EDUCATION

Manipal Institute of Technology — *Manipal, Karnataka, IN*
Bachelor of Technology in Computer Science and Communication — August 2023 – Present
***Relevant Coursework**: Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Object-Oriented Programming, Information Security*

Delhi Public School — *Greater Noida, Uttar Pradesh, IN*
High School Diploma | **Percentage**: 95.75% — 2008 – 2022

PROFESSIONAL EXPERIENCE

Schenck RoTec India Ltd. | *Software Development Intern - Global IT Department* — Jul 2026 – Aug 2026, *Noida, Uttar Pradesh, IN*

- Designed and built the **Power Pages Student Event & Host Club Directory Hub**, a full-stack web app on Microsoft Power Pages that unified event discovery, club directories, and student registration — replacing a scattered mix of spreadsheets, forms, and social posts for internal event management.
- Architected a secure three-tier system (**Dataverse**, Liquid/FetchXML server-side templating, client-side JS) powering an interactive event calendar, auto-generated club directory, and a multistep registration flow with live ticket-ID generation.
- Automated confirmation emails, scheduled reminders, and on-demand/monthly admin reporting using **Power Automate**, cutting out manual admin work with event-driven and scheduled workflows.

Deepthought Edutech Ventures Pvt. Ltd. | *AI Agent Developer - Internship* — May 2025 - July 2025, *Pune, Maharashtra, IN*

- **Developed AI-driven** chatbots for clients including Wishkarma to enhance engagement and automation.
- Integrated chatbots with client platforms in collaboration with cross-functional teams for seamless deployment.
- Trained and fine-tuned language models to improve intent recognition, response accuracy, and user experience.

Blockchain & Web3 | *Manipal Institute of Technology* — *Manipal, Karnataka, IN*

- Researched blockchain and Web3 technologies under the guidance of Ms. Pooja S., executing smart contracts in Solidity and exploring consensus mechanisms to improve security and efficiency.

PROJECTS

NexusSubs | *Next.js, TypeScript, Gmail API, NextAuth.js*

- Designed and launched a **comprehensive subscription management hub** using **Next.js** and **TypeScript**, featuring a premium dark mode UI and high-performance server-side rendering.
- Automated subscription tracking by integrating the Gmail API, enabling the system to securely scan billing data across major services with **multi-account Google OAuth support**.
- Pioneered an **advanced AI Discovery Assistant** leveraging the Google Gemini API (Vision + Text) to deliver mood-based media recommendations and identify movies directly from user-uploaded screenshots.

Binkeyit | *React, Node.js, Express, MongoDB*

- Constructed a high-performance **MERN** stack e-commerce platform, achieving sub-second page transitions and a premium responsive UI through **Vite** and **React Router**.
- Embedded a state-of-the-art **AI Shopping Assistant** powered by the **Google Gemini API** to curate personalized product recommendations and automate intuitive cart management.
- Implemented live order tracking capabilities utilizing Socket.io and Leaflet.js to provide users with seamless, real-time delivery visualization.

PokéFinance | *Next.js 16, React 19, Three.js, React Three Fiber, Supabase, TypeScript*

- Engineered a full-stack gamified personal finance tracker rendering an interactive 3D Pokémon world (*Route 1*) with **Three.js** and **React Three Fiber**, supporting 360° orbital navigation, day/night cycles, and custom VFX.
- Architected an automated **expense-to-EXP progression engine** across 12+ categories, computing level milestones ($EXP = n^3$), dynamic evolutions, and 8 unlockable Gym Badges with real-time **Supabase** sync.

TECHNICAL SKILLS

Programming Languages: Python, C, Java, SQL, JavaScript, Dart, HTML/CSS, C#, C++
Frameworks: React, Next.js, Three.js, Node.js, Express, Flask, Django, TensorFlow, PyTorch, React Native, Flutter
Developer Tools: Supabase, Git, VS Code, MongoDB, PostgreSQL, Jupyter Notebook, Eclipse, PyCharm

LEADERSHIP & ACTIVITIES

Epoch'24 - Tech Tatva | *Technical Committee Member* — Aug 2024 - Oct 2024

- Organized a large-scale datathon focused on **exploratory data analysis (EDA)** and ethical dataset evaluation for college participants.

The Data Alchemist - Board Member | *HR & Management Head* — Aug 2025 - Present

- Promoted from Management Committee to **Head of HR** based on leadership in organizational strategy and team coordination.
